11047

1 3/4" Shotgun Drag Pipes

Classically styled high quality Shotgun Drags are made of 16 gauge steel with beautiful chrome plating, great bends and hot performance. Optional baffles may be used if a quieter exhaust note is desired.

11047 For Softail models 84-06.

650152 For Softail models from 07-11

11229 1 3/4"-diameter baffle

Note: The installation of this pipe set on Fat Boy and FLSTN models will require the removal of the stock rear exhaust pipe mounting bracket.

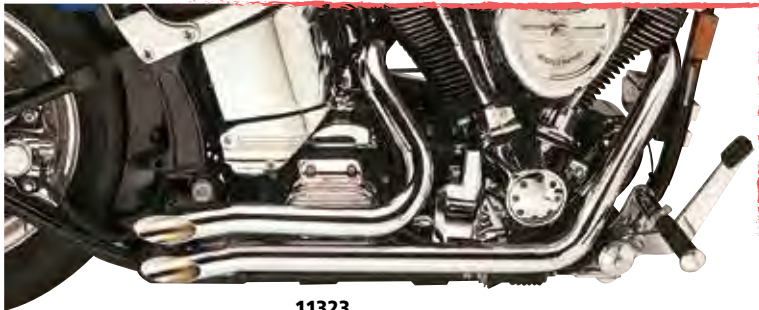

1 3/4" 'S'-Style Drag Pipes

These slick looking drags have an 'S' shaped rear pipe that crosses the transmission stacked above the front pipe. Available in a variety of styles, they are constructed of 16 gauge steel and feature flawless chrome plating. Each set uses hidden channel mounts and includes all necessary hardware and brackets except where noted otherwise.

'Shorty Kickdown' Drags for Softail Models from 86-06.

Includes an innovative chrome plated exhaust bracket that replaces the tubular Original Equipment part

11323 Slash-Cut Drags for Softail models 86-06.

11323

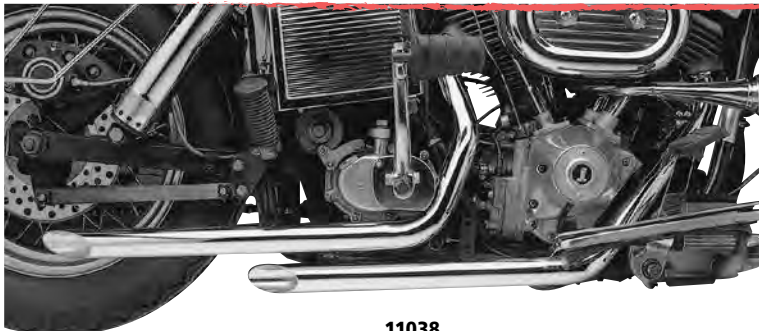

For 4-Speed FL Models 70-84 (with kick or electric start)

40"-long drag pipe set has an inside-the-frame front pipe that fits with factory floorboards and forward-mounted master cylinder. The under-the-transmission rear pipe clears the large battery, factory safety bars and saddle bags. Easily mounted using optional 'P'-clamps. Floorboard models require an optional Floorboard Adaptor.

11038 1 3/4" Drag pipes

26312 Floorboard adaptor

11229 1 3/4"-diameter baffle

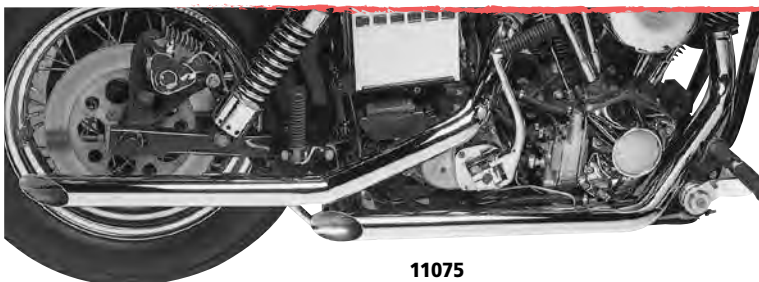

11038

For FX Models 71-84 and 4-Speed FL Models 81-84.

Clear all Original Equipment footpeg and control positions and provide superior fit with excellent ground clearance. Complete with concealed channel-mounts, chrome mounting bracket, exhaust port gaskets, sockethead exhaust port screws with lockwashers, and installation instructions. Optional baffles may be installed when a quieter exhaust note is desired.

- 697417** 3.5" End cap Thruster black

Santee 2-Into-1 Headpipes for Softail Models 86-06.

Modeled after the early-style 2-into-1 exhaust systems, the two separate front and rear 1 3/4" headers are joined with a tooled slip-fit connection for a snug, leak-resistant seal that requires no external clamping. This pipe set allows you to build a custom system and includes a muffler clamp and mounting bracket. Provides generous ground clearance and won't interfere with Original Equipment floorboards, controls, footpegs or saddlebags.

SuperTrapp SE Series 3,5" Slip-Ons for Touring Models

The King of rideable and usable torque and champion of numerous magazine shootouts. The best-selling and most widely used aftermarket exhaust providing a 10-12% horsepower gain. Steel, chrome-plated shells, mild Steel core and double wall construction prevents bluing. Race proven mechanical baffle increases torque and horsepower and is less than 3dB louder than stock. Internal baffle heatshield eliminates body bluing for years of riding in worry-free style. All chrome, billet and Yaffe end caps are compatible with SE Series Slip-Ons. Select models of SE Series Slip-Ons are available in SuperPak Performance Kits.

- 664022 Fits FLH/FLT models 95-09*.Pair.

*Does not include end caps. Uses SE series end caps

664000

SuperTrapp V5 2-into-1 Slip-On Exhaust System for V-Rod Models

The ultimate pipe for your V-Rod. SuperTrapp's external disc technology is incorporated into the company's first ever 5" pipe. Provides a significant horsepower increase and a deep throaty exhaust note and uses your stock headpipe. It not only looks better but also weighs a whopping 21 lbs. less than the stock system. The tunable disc system allows the rider to add discs to increase the exhaust sound and top end power; by removing discs the low-end torque increases and the exhaust sound is also decreased. Features a triple chrome-plated mid pipe, heat shields and canister, stainless steel core and polished billet end cap.

664605 Fits all 07-10 VRSCX/AW/AWA models

SuperTrapp 'X-Pipes' by Paul Yaffe Originals

- Hot shotgun styled pipes designed by Paul Yaffe for the SuperTrapp 'Road Legends' series.
- Available in a chrome-plated, ceramic black or silver coated finish.
- All pipes include heatshields.

Fits all Dyna Models from 91-14

664061 Chrome-plated finish for 06-14 models*

Note: *Includes O2 sensor port

SuperTrapp 4" Universal Muffler in Black

High temperature coated black steel body with stainless steel core. 18.5" length. For those who want to build their own exhaust. Available in 1.75" inlet diameters.

664040 1.75" inlet

SuperTrapp 'Mean Mothers II' Drag Pipes

The latest version of the Mean Mothers drag pipes have been revised and re-designed. They will have the same big look and booming sound as always but we have added a few goodies. A new mounting design makes them easier to install and the removable baffles come pre-installed. The heat shields are still preinstalled but now they are replaceable. Redesigned optional end tips and new protective packaging round out the added features Full double-walled chrome drag pipes with baffles. Stock end caps included. Optional end cap styles sold separately.

696235 Mean Mothers II, standard for Softail FXST/FLST models 84-14

696237 Mean Mothers II, short for Softail FXST/FLST models 84-14

696239 Mean Mothers II, long for Softail FXST/FLST models 84-14

A second version with a slider for installation on the right side is also available and a 2 1/2" diameter, 30" long version for 80-84 FLT models, a 3" diameter, 29" version for 85-94 Touring models and a 3" diameter, 31" version for 95-13 Touring models. Sold each. Made in USA by the gang at Paughco.

- 651335 Fishtail style muffler
- 651336 Slider fishtail muffler
- 651340 80-84 FLT muffler (left)
- 651341 80-84 FLT muffler (right)
- 651347 85-94 Touring
- 651348 95-13 Touring

Universal Turnout or Turndown Muffler by Paughco

Turnout muffler that connects to any 1 3/4" headpipe. 3" diameter, all steel internal baffles, can be rotated and used as a turndown muffler. Sold each.

- 651344 Turndown muffler

Vintage Slip-On Muffler

This chrome reproduction of the 58-65 Panhead 'Shorty' muffler works with single or dual (crossover) 1 3/4" diameter header pipes and most stock brackets. Measures 3 1/4"-diameter x 25 1/2" long. Sold each.

- 280925 Slip on muffler

651338

651339

Universal Tapered Mufflers by Paughco

Available in two versions. A 3 inch diameter, 30 inch long muffler or a 2 1/2 inch with 22 inches of length. Both fit over 1 3/4 inch head pipes. Sold each.

- 651338 Muffler 22 inches
- 651339 Muffler 30 inches

FL-Style Fishtail Mufflers

Show-chrome replicas of the mufflers found on 58-66 FL models. These clean, bracketless mufflers permit left or right-side mounting and have a 1 3/4"-inlet. Available in two lengths. Sold each.

- 11420 28"-long muffler (repl. OEM 65244-62TA)
- 11421 33"-long muffler (repl. OEM 65258-88T)
- 11214 3 1/4" stainless steel muffler clamp (repl. OEM 65293-58)

Universal Shorty Muffler

A versatile, universal 11 3/4"-long muffler with one 1 3/4" and one 1 1/2" opening. By simply reversing the muffler, it can work on either 1 3/4" or 1 1/2" exhaust systems. The shorty muffler comes complete with a welded-on stud, hardware and flat strap for mounting. Sold each.

- 11183 Shorty muffler

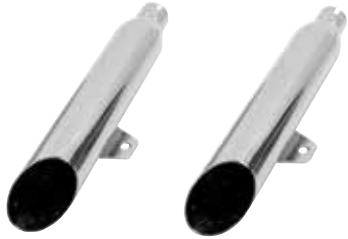

Muffler Hanger for Touring Models

This is a quality reproduction of the original muffler hanger used on Touring models since 1985. Sold each. Replaces OEM 65724-85.

- 688643 Muffler hanger

TC Bros Choppers Do It Yourself Builder's Exhaust Kits

This kit comes with everything you need to cut and weld a set of custom pipes for your bike and is made right here in the USA! All tubing is 1.75" OD x 16ga Wall (.065" Thick) American Made mild steel for superior weld-ability. All bends are 3.5" centerline radius and are produced using a CNC mandrel bender for accuracy and maximum exhaust flow. Kit includes 2 = 90 degree bends, 2 = 180 degree bends, 3 straight tubing pieces, 2 U-channel mounts, and the proper heavy duty flange set to fit your bike with a leak free seal. This DIY kit is the perfect way to build the unique looking set of pipes you desire!

- 660942** Exhaust kit for Evolution Big Twins, Twin Cams models 84-Up and Sportster models 86-Up
- 660943** Exhaust kit for Shovelhead models 67-83
- 660944** Exhaust kit for Ironhead Sportster models 57-85
- 660945** Exhaust kit for Panhead models 48-66

Exhaust Flange Kit for S.T.D. Shovelhead/Panhead by Vulcan Engineering

- These are perfect for building a one-off custom exhaust system for our 'Pandemonium' or Shovelhead motors
- Designed to fit all S.T.D. 3-bolt Shovelhead and Panhead's
- Made in the U.S.A.
- Sold each

Muffler Joint Gaskets

These copper gaskets are used to seal the joints between the mufflers and the headpipes on all FLT, FLHT, FLHS and Road King models from late 85-94. Pack of 10.

54230 Replaces OEM 65721-85

Exhaust Stud-Nut and Gasket Kit for Shovelheads

Included in this kit are two 'Tuff Seal' exhaust port gaskets. These new-style gaskets make all others obsolete. The kit also prevents thread stripping in the heads by using two permanent studs. Includes four studs, two 'Tuff Seals' and two chromed nugget nuts with lock-washers. Fits Shovelheads from 66-84.

25067 Sold on a card of 5 sets

6

Extra Wide Aircraft Style Exhaust Clamps

1 1/16" wide from heavy wall 1/8" thick steel to offer an improved seal and better support for the exhaust system.

380103 Fits Panhead models 48-65. 2 1/8".

Wide Aircraft-Style Chrome Exhaust Clamps

These custom clamps measure 1 1/16"-wide and are wider than standard clamps. They were made to provide a better seal and support the exhaust pipes to their flanges. Made from heavy-wall (1/8"-thick) cold-rolled and chrome-plated steel, they have a 1 7/8"-inside diameter which also makes them ideal for attaching mufflers to headpipes. Sold in pairs.

11234 Fit Sportster models from 57-85

Chrome Heavy Duty 'P' Clamps

These heavy duty steel 'P' clamps are 6" long, 7/8" wide and 1/8" thick. Includes pinch bolt with nut and lock washer. Sold each.

380151 Fits 1 3/4"-diameter pipes

Chrome Aircraft-Style Exhaust Clamps

Custom exhaust clamps made of heavy-wall (1/8"-thick), cold-rolled steel, complete with sockethead screws. Sold in pairs.

11101 Fit Sportster models from 57-85 (repl. OEM 65273-88T)

11233 Fit Panheads from 48-65 (repl. OEM 65274-88T)

Muffler Clamp

A highly-polished muffler clamp made of .100" thick stainless steel strap. It's 1"-wide and has a 3 1/4" opening an exact duplicate of the OEM clamp used to support the mufflers on FL models for many years. Sold each.

11214 3 1/4" stainless steel muffler clamp (repl. OEM 65293-58)

Chrome Late Model Muffler Clamps

This two-piece clamp fits all FXRD, FLT, FLHT and FLHS 5-speed models from 85-93. The earlier version was a one-piece clamp which often broke during removal or installation. Each clamp includes all necessary chrome mounting hardware. Sold in pairs.

11427 Replaces OEMs 65722-85, 65722-85B

EXHAUST

Muffler Reducer Sleeve

Zinc-plated muffler reducer sleeve to adapt all 1 3/4" mufflers to 1 1/2" drag pipes. Sold each.

Exhaust Flange Kit for Evolution and Twin Cam Models

Ideal for dress up or exhaust system installations. Contains 2 chrome exhaust flanges, retaining rings, exhaust gaskets and chrome acorn nuts with washers. Fits Evolution Big Twin models from 84-99, Sportster models from 86-13 and Twin Cam models from 99-13.

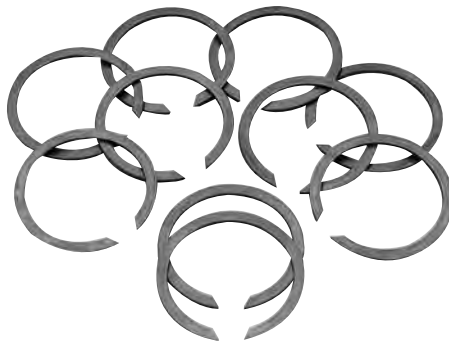

090021 Complete kit

Exhaust Manifold Clamp

Fits Evolution Big Twins from 84-99, Sportster models from 86-13 and Twin Cam models from 99-13 (see CCI #11426 for exhaust retaining rings). Sold each.

090012 Replaces OEM 65328-83

Exhaust Retaining Rings for Evolution and Twin Cam Models

These American-made retaining rings are used to join the exhaust flange and pipe to the cylinder head on all Evolution and Twin Cam Big Twin models from 84-13, and Evolution Sportster models from 86-13.

11426 Replacement retaining rings (repl. OEM 65325-83) pack of 10

Chrome Flange and Retaining Ring Kit for Evolution and Twin Cam Models

This kit includes two new chrome-plated exhaust flanges and a pair of retaining rings. This kit is ideal for anyone building a bike from the ground up, or to upgrade the existing flanges on stock bikes. Replacement retaining rings are also available separately. It fits all Big Twin, Twin Cam and Evolution Sportster motors from 84-13.

11425 Chrome exhaust flange kit

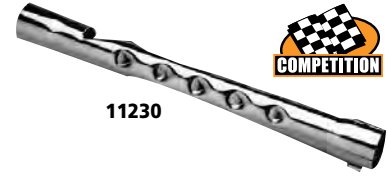

11426 Replacement retaining rings (repl. OEM 65325-83) pack of 10

Late Style Exhaust Flange Set

Reproductions of the OEM late style exhaust flanges used on 04 and later models. The altered design prevents warping that was common for the earlier style exhaust flanges.

688178 Late style exhaust flange set

11230

12" Drag Pipe Baffles

These replacement drag pipe baffles are extra-long. Sold each.

11230 Fits 1 1/2"-diameter pipes

11238

11228

11229

4" Mini Pipe Baffles

Short length, full-performance, all-steel baffles for all pipes between 1 1/2" and 2" in diameter. Sold each.

Oxygen Sensor Bung Reducers 18mm to 12mm

These threaded reducer sleeves allow the use of earlier aftermarket exhausts with 18mm bungs on models equipped with 12mm sensors. Harness extensions (CCI#622332) available separately if needed. Sold in pairs.

622331 O2 sensor bung reducers 18mm to 12mm

Oxygen Sensor Adapter Kit

Complete kit that allows the installation of aftermarket exhaust systems with 18mm O2 sensor bungs on models that are equipped with factory 12mm sensors with 4 pin plugs. Includes two sensor bung reducers and 22" harness extensions for the sensors.

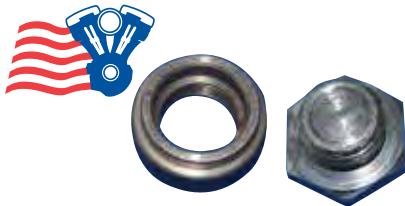

622330 O2 sensor adapter kit

Exhaust Crossover Gaskets

These knitted steel gaskets are used in the crossover tube between the front and rear exhaust pipes. They fit sportster and FXR models from 82-99 as well as Fat Boy and FLSTN models from 90-99.

54229 Replaces OEM 65781-82 (pack of 10)

Stainless Steel O2 Sensor Bung and Plugs

Important accessories if you are fitting an early exhaust without O2 sensor ports to a late model bike or a late exhaust to an early bike. Sold each. 18mm thread size.

672534 Weld in sensor bung

672535 Sensor bung plug

Oxygen Sensor Harness Extensions

Used to extend the factory 12mm O2 sensor harness with 4 pin plugs when an aftermarket exhaust is installed that has a different bung location. Harness length is 22". Sold each.

622332 O2 sensor harness extension.

Motor Factory Exhaust Port Gaskets

These knitted wire-mesh crush gaskets are available in either the early-style or the later-style which has been used since 1991. They may be installed in all Evolution or Twin Cam motors when fitting Original Equipment or aftermarket exhaust systems. Packs of 10.

12106 Early (repl. OEM 65324-83)

12095 Late (repl. OEM 65324-83A)

Oxygen Sensor Bung Plugs

Used to seal unused O2 sensor bungs. Available for 18mm and 12mm bungs. Sold each.

688189 Sensor bung plug 18x1.5mm

688190 Sensor bung plug 12x1.25mm

Motor Factory 'Tuff Seal' Exhaust Port Gaskets

The finest exhaust port gasket available. Born on the track, they inherited their racing lineage from head gaskets used in high-horsepower applications. The 'Tuff Seal' is a metal-core, silicone-impregnated material that has a tough alloy ring around the inside edge to keep exhaust gases from escaping and to ensure a faultless pipe-to-head seal. Fit Shovelheads from 66-84. Pack of 10.

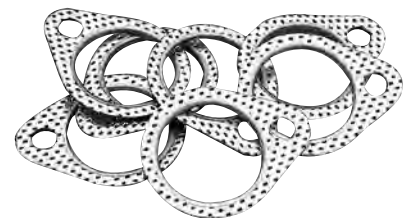

12100 Tuff Seal

Oxygen Sensor Socket Tool

This tool is used to remove or install the oxygen sensor on all closed loop fuel injected H.D. models. Socket has a 3/8" drive receiver or can be used with a 7/8" wrench. Socket will withstand up to 125 ft/lbs of torque.

640091 For use on all EFI models 06-11 (except 10- touring)

High-Performance Exhaust Gaskets

These high-tech gaskets feature a stainless steel-clad, heat-resistant material. They also have a tough, alloy ring around the inside edge to keep exhaust gasses from escaping and to insure a faultless seal between the pipe and the exhaust port of all Shovelhead engines from 66-84. Pack of 10.

12099 High-performance exhaust gaskets (repl. OEM 65835-86T)

EXHAUST

Shovelhead Exhaust Flange Bolts

Sockethead bolts for the exhaust flanges on Shovelheads from 66-84.
25064 Replaces OEM 3201W (card of 24)

JIMS Exhaust Stud Drill Plate

Guides and aligns the drill bit when removing broken exhaust studs. Use with a tap after to clean the threads. Can be used in the frame. Includes drill bit.

20940 For Evolution and Twin Cam models

Muffler Hanger for Touring Models

This is a quality reproduction of the original muffler hanger used on Touring models since 1985. Sold each. Replaces OEM 65724-85.
688643 Muffler hanger

Exhaust Studs and Nuts by James Gaskets

Quality replacement exhaust studs and nuts. Exhaust studs are sold in pairs, exhaust nuts are sold in packs of eight.

667505 Exhaust studs (pair)

667506 Exhaust flange nuts (8)

Exhaust Stud and Nut Kit

Set of four exhaust studs with nuts for Evo Big Twins 84-99, Sportsters 86-14 and Twin Cams 99-14. Set of 4.

688595 Exhaust stud and nut kit. Replaces OEM 16715-83.

DEI Flexible Heat Shield

Thinking beyond the traditional stainless steel or carbon fiber heat shields, DEI developed a flexible heat shield solution that outperforms other shields available today. This enhanced performance starts by joining two durable materials together forming a dual-layer design. The outer layer is made from heat-treated glass fiber that is bonded with molten aluminum made into a tight weave for durability and strength. The inside material is made of a special high temperature resistant fabric (89% silica) designed to withstand some serious exhaust heat. The result is a product with unmatched thermal performance good up to 1350°F and finished off with a pleasing rich black finish. Universal fitment to fit from 1-3/4" up to 2-1/2" pipes for many applications since the shield remains flexible. Includes stainless steel hardware. Measures 8" long x 4" wide. Made in the USA.

DEI HT Silicone Coating

HT Silicone Coating provides lasting protection for any hot surface. Recommended for use with DEI Exhaust Wrap. It has great sealing properties against oil, grease, dirt, harsh abrasives, and road grime. HT Silicone Coating works equally well on exhaust header, pipes, and engine blocks. HT Silicone Coating is able to withstand temperatures up to 1500°F.
